

MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY (STEM)

This program is not accepting applications.

GW's environmental resource policy (ENRP) program offers a multidisciplinary approach to environmental and sustainability studies. The master of arts (MA) in ENRP prepares students to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy groups. ENRP is built on a curriculum that includes environmental economics, environmental law, public policy, research methods, and a two-semester environmental science course. The program blends theory and practical experience with a professional, client-oriented capstone project, academic credit for relevant internships and research, and a wide range of internship opportunities in Washington, DC.

This is a STEM designated program.

Visit the Department of Geography and Environment (<https://geography.columbian.gwu.edu/>) website for additional information.

ADMISSIONS

Admission deadlines: Fall: February 1: Priority consideration for admission and funding; April 1: Guaranteed review for admission and consideration for funding, if available. (Applications for admission will continue to be accepted after April 1, when space remains available in the program.)

Spring: October 1 (Late Applications accepted on a case by case basis for students who do not require an F-1 or J-1 visa through November 1)

Standardized test scores: The GRE general or GMAT is not required however if you feel as though submitting scores for the GRE or GMAT will strengthen your application, you are welcome to submit them. The Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the PTE Academic is required of all applicants except those who hold a bachelor's, master's, or doctoral degree from a college or university in the United States or from an institution located in a country in which English is the official language, provided English was the language of instruction. Minimum scores for the program are:

Academic IELTS: an overall band score of 7.0 with no individual score below 6.0; or

TOEFL: 600 on paper-based or 100 on Internet-based; or

PTE Academic: 68

Recommendations: Two (2) recommendations required:

Prerequisite requirements: In order to satisfactorily complete several of the ENRP core courses, including applied statistics (PPPA 6002), Microeconomics for Public Policy PPPA 6007, and environmental science (ENRP 6101/2), students must have math skills equivalent to that provided by a college course in algebra, pre-calculus, analytic geometry, or introductory statistics. Suitable applicants who lack such skills will be admitted with a stated deficiency in mathematics that must be fulfilled in the first semester of the program.

Prior academic records: Transcripts are required from all colleges and universities attended, whether or not credit was earned, the program was completed, or the credit appears as transfer credit on another transcript. Unofficial transcripts from all colleges and universities attended must be uploaded to your online application. Official transcripts are required only of applicants who are offered admission. If transcripts are in a language other than English, English language translations must be provided. The English translation alone should be uploaded into your application.

Statement of purpose: In an essay of 250 – 500 words, state your purpose in undertaking graduate study in your chosen field. Include your academic objectives, research interests, and career plans. Also discuss your related qualifications, including collegiate, professional, and community activities, and any other substantial accomplishments not already mentioned on the application.

International applicants only: Please review International Applicant Information carefully for details on required documents, earlier deadlines for applicants requiring an I-20 or DS-2019 from GW, and English language requirements.
