

# PHARMACOGENOMICS (PHRG)

## Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-level undergraduate courses that can also be taken for graduate credit with permission and additional work assigned
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

### **PHRG 1101. Introduction to Pharmacy Practice I. 2 Credits.**

Applications of interpersonal communication and teamwork, basic pharmacology, medication-related mathematics, pharmacy technologies and pharmaceuticals, patient safety and quality, resource management, drug therapy-related legal and ethical standards, and principles of patient-centered care. Prerequisite: HSCI 1101. Recommended background: prior completion of a course in mathematics.

### **PHRG 1102. Introduction to Pharmacy Practice II. 2 Credits.**

Continuation of topics introduced in PHRG 1101. Restricted to Students in SMHS. Prerequisite: PHRG 1101. Recommended background: Prior completion of a course in mathematics.
