

BACHELOR OF ARTS WITH A MAJOR IN LATIN AMERICAN AND HEMISPHERIC STUDIES

The Latin American and Hemispheric Studies program at GW begins with a foundation in political science, economics, history, and anthropology that prepares students to deal with issues that cross political and cultural boundaries. Students in the program explore a wide variety of subjects beginning with international politics and policy, moving through trade and economics, development and human rights, culture, and regional studies. Benefiting from a faculty of leading scholars and senior international affairs practitioners, students have access to a number of internships, diverse study-abroad opportunities, and more than 250 events each year. Program graduates also have access to numerous career opportunities within Washington, DC. Many go on to serve as senior policymakers and diplomats, international business executives, and global nonprofit leaders.

GENERAL REQUIREMENTS

Elliott School bachelor's degrees engage students with global issues through multidisciplinary and interdisciplinary approaches. Students begin their studies in the first year with foundational courses in political science, economics, history, and anthropology or geography. They supplement these courses with others in the traditional liberal arts categories of writing, oral communication, natural or physical science, mathematics or statistics, and the humanities/creative arts, plus two writing in the disciplines courses. Language study also is emphasized early to enable students to satisfy the third-year language proficiency requirement of the bachelor's degree in a timely manner.

Elliott School bachelor's degrees require a minimum of 120 credits. The following three sets of requirements must be fulfilled:

1. University General Education Requirements

2. Elliott School Introductory Requirements

3. Major Requirements
