

DOCTOR OF NURSING PRACTICE IN THE FIELD OF ADULT-GERONTOLOGY ACUTE CARE NURSE PRACTITIONER

The online doctor of nursing practice (DNP) in adult-gerontology acute care nurse practitioner (AGACNP) program prepares graduates to function as doctorally prepared nurses at the highest level of clinical practice, to translate knowledge into practice, to apply policy, as well as design, implement and evaluate innovations to improve health care systems and patient centered outcomes.

This option prepares registered nurses as advanced practice leaders and inter-professional team members providing care for acute and critically ill patients and their families. Acute care NPs attend to adolescents and adults across the continuum of care, including in urgent care centers, critical care units, and inpatient medical-surgical or specialty units.

Students are prepared to be eligible to sit for both of the nationally recognized certification examinations for adult-gerontology acute care nurse practitioners from American Nurses Credentialing Center (ANCC) and from the American Association of Critical Care Nurses (AACN). Clinical placements are selected jointly by the student and the program director and carried out in Northern Virginia, Maryland, or Washington, DC. All students attend several on-campus experiences related to DNP coursework, as well as clinical skills development and patient assessment.

Visit the [GW Nursing website \(https://nursing.gwu.edu/\)](https://nursing.gwu.edu/) for additional information.

ADMISSIONS

Admission Fall - Priority: December 1 deadline:

Recommendations: Two letters of recommendation

Prior academic records: Transcripts from all post-secondary schools attended are required.

Statement of Purpose: A personal statement describing your career goals relative to the doctoral study. You should include a general idea for your DNP project. Your vision for your post-DNP contributions to advance the nursing profession through scholarship and evidence-based practice must be emphasized in the statement. Also, briefly describe your professional nursing practice and indicate any current or previous leadership roles. The applicants with a clear idea of a potential DNP project and the ability of the project to enhance/improve/contribute to nursing practice will be given preference for admission.

Additional Requirements: Minimum of Bachelor of Science degree in nursing from a regionally accredited college or university with a preferred minimum cumulative GPA of at least 3.0 on a 4.0 scale.

Active and unencumbered RN license from a U.S. state or territory

Applicants must live in Maryland, Northern Virginia, or the District of Columbia while taking the clinical courses NURS 6235, NURS 6236 and NURS 6237.

Current resume

Supporting documents not submitted online should be mailed to:
